

SHARJIL SHARMA

sharjilsharma@gmail.com | +91 9811885290 | linkedin.com/in/sharjil-sharma | github.com/SharjilSharma | leetcode.com/u/sharjil1

Final-year Computer Science (AI/ML) student seeking **Software Engineering and AI/ML Engineering** roles. Hands-on experience building web applications, data pipelines, and LLM systems (RAG, adversarial testing), with strong fundamentals in **data structures, algorithms, and OOP**. Hackathon winner (1st of 100 teams).

PROFESSIONAL EXPERIENCE

KVGAI (In collaboration with Turing)

Jan 2026 – June 2026

AI / Machine Learning Engineering Intern & Team Lead

- **Adversarial Red Teaming:** Executed targeted jailbreaking, prompt injection, and vulnerability stress-testing on production-grade LLMs to discover alignment and response failures.
- **Vulnerability Testing:** Isolated and logged complex model edge cases, reasoning hallucinations, and behavioral non-compliance to update internal evaluation safety guidelines.
- **Infrastructure Operations:** Managed large-scale testing workflows within MCP server environments, validating test consistency and ensuring 100% reproducibility across experiments.
- **Technical Leadership:** Managed Quality Assurance (QA) cycles for the cohort and led technical peer reviews to audit, grade, and refine adversarial test cases.

Innov8 Bid-2-Code Hackathon

Oct 2025

Project Lead | Winner (1st Place out of 100 Teams)

- **Rapid Prototyping:** Led the team to design and ship a functional sponsorship-marketplace prototype in 24 hours under hackathon constraints.
- **ML Matchmaking:** Architected a tool using **TF-IDF** and **Cosine Similarity** to match 50+ society profiles with brand goals.
- **Data Pipeline:** Wrote Python scripts to convert unstructured descriptions into vectorized data for real-time sponsor ranking.

TECHNICAL SKILLS

Languages: Python, C++, C, SQL, HTML/CSS

CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems

AI/ML & Data: Scikit-Learn, Pandas, NumPy, Retrieval-Augmented Generation (RAG), LLM Orchestration, Vector Search, CNNs

LLM Reliability: Prompt Engineering, Adversarial Testing, RAG Benchmarking, Model Reliability, MCP (Model Context Protocol) Workflows, Asynchronous Ingestion

Tools & Soft Skills: Git/GitHub, MySQL, VS Code, Technical Leadership, Agile Collaboration

TECHNICAL PROJECTS

1. Jagruk Mahila (ICSSR & United Nations Project)

Python, RAG, LangChain, OpenAI

jagrukmahila.in

- **Conversational AI:** Engineered an AI chatbot utilizing a **RAG pipeline** to provide accurate, context-aware legal assistance from verified institutional datasets.
- **Model Reliability:** Implemented **emotion-sensitive logic** and domain guardrails to ensure professional empathy while strictly preventing out-of-scope interactions.
- **Data Pipelines:** Configured secure user-query data handling protocols to optimize real-time context retrieval and response accuracy.

2. AI News Scraper & Automation

Python, Playwright, BeautifulSoup, NLP

- Aggregated real-time research from 50+ journals using **Named Entity Recognition (NER)** and **Semantic Search** for breakthrough identification.
- Built an on-demand aggregator that scrapes and consolidates real-time news, reports, and social media announcements into one unified interface.

3. Eventure: Sponsorship Marketplace

Python, SQL

- Engineered the backend **escrow payment** flow (hold-and-release on milestones) and integrated the sponsor-society **matching** service into the application.

LEADERSHIP & CAMPUS INVOLVEMENT

HackSphere – IPEC

Mar 2025 – Present

Strategic Lead & Event Coordinator

- **Event Operations:** Managed the "BuildIt Tour" at **Microsoft Noida** for 200+ participants and industry mentors.
- **Framework Design:** Created the technical scoring rubrics and judging criteria adopted for campus hackathons.

ThinkAI Club

Oct 2025 – Present

Core Member

- Conducted workshops on AI/ML fundamentals and coordinated sponsorship for large-scale campus tech festivals.

EDUCATION & CERTIFICATIONS

Inderprastha Engineering College (IPEC)

GPA: 7.8/10 | Aug 2023 – Dec 2027

B.Tech in Computer Science (AI & ML)

Certifications: AWS Cloud Foundations, IBM Data Vis., Udemy Python 3
